INDEPENDENT ACCOUNTANT'S REVIEW REPORT

To the Board of Directors and Members
Tahoe Tyrol Homes Association
South Lake Tahoe, California

I have reviewed the accompanying financial statements of the Tahoe Tyrol Homes Association (a California Nonprofit Mutual Benefit Corporation) which comprise the balance sheets as of December 31, 2021 and the Statements of Revenues, Expenses and Changes in Fund Balances, and cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical review procedures to management's financial data and making inquiries of Association management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require me to perform procedures to obtain limited assurance as a basis for reporting whether I am aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I believe that the results of my procedures provide a reasonable basis for my conclusion.

Accountant's Conclusion

Based on my review, I am not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Summarized Comparative Information

I previously reviewed the Tahoe Tyrol Homes Association's December 31, 2020 financial statements and in my conclusion dated March 4, 2021, stated that based on my review, I was not aware of any material modifications that should be made to the December 31, 2020 financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America. I am not aware of any material modifications that should be made to the summarized comparative information presented herein as of and for the year ended December 31, 2020, for it to be consistent with the reviewed financial statements from which it has been derived.

Supplementary Information

The supplementary information included in the accompanying Schedule of Operating Revenues and Expenses by Department - Budget (Compiled) and Actual, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The information (except the budget, which was compiled without audit or review from information that is the representation of management, on which I do not express an opinion or any other form of assurance) is the representation of management. I have reviewed the information and, based on my review, I am not aware of any material modifications that should be made to the information in order for it to be in accordance with accounting principles generally accepted in the United States of America. I have not audited the information and, accordingly do not express an opinion on it.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the supplementary information on future major repairs and replacements on common property on pages 13 and 14 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Financial Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The required supplementary information has been compiled from information that is the representation of management. I have not audited or reviewed the required supplementary information and, accordingly, do not express an opinion, a conclusion, nor provide any assurance on it.

TAHOE TYROL HOMES ASSOCIATION

Notes to Financial Statements
December 31, 2021 and 2020

Note 1: **Organization and Summary of Significant Accounting Policies**

A. **Organization**

The Tahoe Tyrol Homes Association (“Association”), was formed in August of 1973 and is a non-profit corporation organized under the Non-Profit Mutual Benefit Corporation Laws of California. The primary purpose of the Association is to own, repair, maintain, and manage certain common areas of the development, to enforce the rules and regulations adopted by the Board of Directors, and to discharge such other lawful duties and responsibilities required pursuant to the Corporations’s Bylaws and the Declaration of Covenants, Conditions, and Restrictions. The Association consists of 116 residential lots and 5 common area lots located in South Lake Tahoe, California.

B. **Date of Management Review**

In preparing the financial statements, the Association evaluated events and transactions for potential recognition or disclosure through February 16, 2022, the date the financial statements were available to be issued.

C. **Method of Accounting**

The Association's policy is to prepare its financial statements on the accrual basis of accounting. Under this basis, revenues are recognized when earned and expenses when the related liability is incurred.

D. **Fund Accounting**

The Association's governing documents provide certain guidelines for governing its financial activities. To ensure observance of limitations and restrictions on the use of financial resources, the Association maintains its accounts using fund accounting. Financial resources are classified for accounting and reporting purposes in the following funds established according to their nature and purposes:

Operating Fund - This fund is used to account for financial resources available for the general operations of the Association.

Replacement Fund - This fund is used to accumulate financial resources designated for future major repairs and replacements.

TAHOE TYROL HOMES ASSOCIATION

Notes to Financial Statements
December 31, 2021 and 2020

Note 1: **Organization and Summary of Significant Accounting Policies** (continued)

E. Income Taxes

The Association qualifies as a tax-exempt homeowners' association under Internal Revenue Code Section 528 for the years ended December 31, 2021 and 2020. Under that Section, the Association is not taxed on income and expenses related to its exempt purpose, which is the acquisition, construction, management, maintenance, and care of Association property. Net nonexempt function income, which includes earned interest and revenues received from nonmembers, is taxed at 30% by the federal government and at 8.84% by the State of California. Income tax expense for the years ended December 31, 2021 and 2020 are \$86 and \$164, respectively.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Association and recognize a tax liability if the Association has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has analyzed the tax positions taken by the Association and has concluded that as of December 31, 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

The Association's federal and state income tax returns are generally subject to examination by taxing authorities for three years (four years for California) after the returns are filed, and the Association's federal and state income tax returns for 2017, 2018 and 2019 remain open to examination.

F. Member Assessments

Association members are subject to monthly assessments to provide funds for the Association's operating expenses and major repairs and replacements. Assessment revenue is recognized as the related performance obligations are satisfied at transaction amounts expected to be collected. The Association's performance obligations related to its operating assessments is satisfied over time on a daily pro-rata basis using the input method. Assessments receivable at the balance sheet date are stated at the amounts expected to be collected from outstanding assessments from unit owners. The Association's policy is to retain legal counsel and place liens on the properties of homeowners whose assessments are thirty days or more delinquent. Any excess assessments at year end are retained by the Association for use in the succeeding year.

TAHOE TYROL HOMES ASSOCIATION

Notes to Financial Statements
December 31, 2021 and 2020

Note 1: **Organization and Summary of Significant Accounting Policies** (continued)

F. Member Assessments (continued)

Because of the collection procedures available to the Board, subject to a reasonable allowance for uncollectible accounts, all assessments are collectible. Assessments receivable at December 31, 2021 and 2020 amounted to \$2,569 and \$3,149, respectively.

G. Topic 606, Revenue from Contracts with Customers, (“Topic 606” in the Accounting Standards Codification (ASC))

In 2020, the Association adopted the provisions of Accounting Standards Codification Topic 606, Revenue from Contracts with Customers, (“Topic 606” in the Accounting Standards Codification (ASC)). Topic 606 superseded the revenue recognition requirements in FASB ASC 972-605, Real Estate—Common Interest Realty Associations, Revenue Recognition. Under Topic 606, the Association must identify a contract with a customer, among other things, and recognize revenue as the Association satisfies a performance obligation.

As described in Note 1 F, Association members are subject to assessments that provide funds for the Association’s operating expenses and major repairs and replacements. Association management has considered Topic 606 and concluded that Association members are not customers as defined in the ASC. As such, all assessment revenue, including amounts allocated to the replacement fund, is recognized in the period in which they are assessed, regardless of when they are collected or expended. This treatment is substantially consistent with the Association’s accounting in previous years.

Contract revenue consists of member assessments. This revenue is recognized as the performance obligations are satisfied, in accordance with Topic 606, at transaction amounts expected to be collected. The Association’s performance obligations related to its contract revenue is satisfied on a monthly basis as services are performed. A contract liability (income received in advance) is recorded when the Association has the right to receive payment in advance of the performance obligations related to the income.

Substantially all of the Association’s contract revenue pertains to services that were completed prior to December 31, 2021, therefore the balance of the Association’s contract liabilities was \$0 as of December 31, 2021. No significant revenue was recognized in the current year resulting from performance obligations satisfied in previous periods.

TAHOE TYROL HOMES ASSOCIATION

Notes to Financial Statements
December 31, 2021 and 2020

Note 1: **Organization and Summary of Significant Accounting Policies** (continued)

H. Property and Equipment

Common areas acquired from the developer and related improvements to such property are not capitalized in the Association's financial statements because the economic benefits inure to the individual property owners and not to the Association.

Personal property, such as equipment, having a cost of \$1,000 or more acquired by the Association is capitalized in the operating fund at cost and depreciated over its useful life using the straight-line method.

I. Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

J. Cash and Cash Equivalents

For purposes of the *Statements of Cash Flows*, the Association considers investments with a maturity, from the date of purchase, of three months or less as cash and cash equivalents.

K. Interest Income

Interest income is allocated to the Operating and Replacement Fund in proportion to the interest-bearing deposits of each fund.

L. Prior Year Summarized Totals

The financial statements include certain prior-year summarized comparative information in total but not by fund. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Association's financial statements for the year ended December 31, 2020 of the prior year, from which the information was derived.

TAHOE TYROL HOMES ASSOCIATION

Notes to Financial Statements
December 31, 2021 and 2020

Note 2: **Investments**

A portion of the regular monthly assessments is used to accumulate funds for future major repairs and replacement expenditures. The investments account represents the amount restricted for these purposes and is invested in certificates of deposit. For the years ended December 31, 2021 and 2020, the Association held one certificate of deposit in the amount of \$55,392. The certificate of deposit is insured by the FDIC for up to \$250,000.

Note 3: **Replacement Fund**

The Association's governing documents require that funds be accumulated for future major repairs and replacements. Accumulated funds are held in separate savings accounts and generally are not available for normal operations. At December 31, 2021 and 2020, these funds aggregated \$101,103 and \$115,853, respectively.

The Board is funding for major repairs and replacements over the remaining useful lives of the components based on the study's estimates of current replacement costs and considering amounts previously accumulated in the Replacement Fund. Funds are being accumulated in the Replacement Fund based on estimates of future needs for repairs and replacements of common property components. Actual expenditures may vary from the estimated future expenditures, and the variations may be material. Therefore, amounts accumulated in the Replacement Fund may not be adequate to meet all future needs for major repairs and replacements. Should the ultimate amount of required expenditures exceed the amount of funds available, the Association is authorized to levy a special assessment against the homeowners, provided there is a 51% majority vote from all voting members.

Note 4: **Commitments and Contingencies**

The Association enters into contracts for the management and for maintenance of common property. These contracts are renewable and can be cancelled by notice of either party.

Note 5: **Risks and Uncertainties**

Due to the outbreak of the COVID-19 virus, almost all aspects of the economy have been adversely affected. Given the continued existence of the pandemic and the attendant measures that have been implemented to contain its spread, the financial impact on the Association's financial position, going forward, is uncertain.

TAHOE TYROL HOMES ASSOCIATION

Supplementary Information on Future Major Repairs and Replacements (Unaudited) For the Year Ended December 31, 2021

In 2021, the Association engaged the services of an independent reserve specialist to conduct an update to the comprehensive reserve study. The study is effective for the 2022 year. The purpose of the study is to forecast the Association's ability to repair or replace major components as they wear out in future years. It should be noted that the reserve study is not an engineering report.

The "Cash Flow" method was used as the basis for the replacement forecast. The Cash Flow method focuses on the contributions necessary, over a thirty-year time horizon, to offset the variable annual forecasted expenditures made from the Replacement Fund. One of the objectives of the Cash Flow method is to always maintain a positive replacement cash balance over the thirty-year horizon. The forecast assumes a 2.5% cost inflation factor for components and a 2.25%, before-tax, return on invested funds.

Based on the study's assumptions and projections, at December 31, 2021, the Association was approximately 82% funded.

The forecasted expenditures outlined in the study are for budgetary purposes only. Actual expenditures may vary from the estimated future expenditures, and the variations may be material. Therefore, amounts accumulated in the Replacement Fund may not be adequate to meet all future needs for major repairs and replacements. Also, any latent defects are excluded from the reserve study.

Presented on the following page is a summary of the reserve study update and presents significant information about the components of the common property. The complete reserve study is available from the Association and is also included in the annual disclosure document.
